- Helped and Participated at Living Free Hoedown.
- Completed work on the Officers area bathroom.
- IFPD Chief Officers meeting.
- CPR and First Aid Classes were held for the USFS.
- Attended the Idyllwild Community Center Opening.

At the Last meeting we answered the Question: Do we have a Wildland Fire Crisis, and What are we Doing about it?

Answer: No, we do not have a Wildfire Crisis, We have a three "P" Problem, (Population, Planning, Permission)

- a) We continue to populate/inhabit areas within the WUI landscapes without clear and defined avenues for both initial and ongoing fire prevention and mitigation plans and funding mechanisms.
- b) We continue to allow fire planning and prevention methods (such as fuels treatments and prescribed burns) to be met with nearly impossible and overly restrictive regulations, policies and standards which paralyze progress in these critical areas.
- c) The fight over "climate change" has blinded many on both sides of the argument to the point that Society does not currently have the appetite to force common sense change and funding mechanisms to ensure that mitigation efforts are proportionate to values and lives at risk.

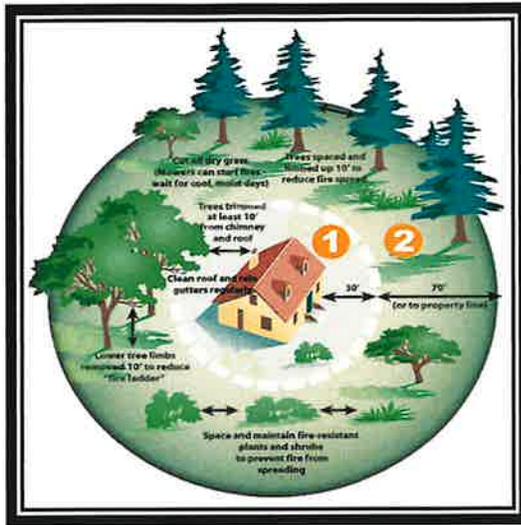

At this meeting we will discuss: *How we can make things better?*

### **It all begins with you, and Property Abatement:**

The Idyllwild Fire Protection District inspects 3829 properties each year. In April 2025 the IFPD did inspect all properties throughout the community with 826 failed properties during this first inspection cycle. Second inspections are just wrapping up and we anticipate (as with previous years) a 50% reduction in overall failed properties (approx.. 400 properties are anticipated to fail inspection #2).

The IFPD will begin the 3<sup>rd</sup> round of inspections in early June and those properties which do NOT successfully complete their required abatement will then receive a citation per IFPD ORD. 01-19.

We urge all property owners having difficulty completing their annual and ongoing abatement responsibilities to contact us for answers to questions and assistance in reaching abatement compliance.

➤ As Per IFPD Ord. 19-01 we perform our annual abatement inspections on ALL properties within the IFPD jurisdiction. IFPD crews start the first round of inspections between **April 1st** and **April 15<sup>th</sup>** each year. Failed inspection notices were mailed out to property owners in late April.

➤ Second inspections are just being completed. After the second inspection notices are mailed out, then a three week interval is given to complete the work prior to the final inspections being performed.

➤ We anticipate final inspections in the first couple weeks of June each year. Last year numerous citations (approximately 3%) were mailed out for those properties which remained out of compliance.

## **Property Abatement 2025:**

***Our annual notification Postcards were mailed out early this year.***

As with previous years, the Idyllwild Fire Protection District will continue inspecting ALL (3829) properties for compliance with ORD 19-01. This local ordinance is in addition to the CA State abatement regulations: (IFPD abatement Inspections begin late spring generally Early to Mid-April – Early June each year).

***This year's 3<sup>rd</sup> inspections have been conducted and failed notices were mailed out to 826 property owners.***

***Second inspections were completed and failure notices were mailed out.***

***Final inspections began June 15th, 2025. (TOTAL FINAL FAILS = 270\* )(Citations have been mailed = 71) Those failing the final inspection have received a citation per IFPD ORD 19-01***

Items which top the "Failed" inspection list each year are:

- ***Address Numbers – These must be 4" or greater in size and must be visible from the street in a contrasting color. (270\* address only)***
- Clearance around Propane Tanks – Must have a minimum of 10' clearance around LP tanks.
- Roof clear of flammable debris – Your roof must be free from pine needles, leaves, and other flammable debris.
- Thirty (30') ft. clearance of all vegetation around your home.

## *How can you help?*

### *Support change,*

- The problem that we are faced with has been developing for decades. Thinking that we can unwind this problem overnight is fool-hearted.
  - Decades of over regulation (Throughout the State and our Country) has paralyzed any useful advancement in the reduction of Wildfires threat to communities.
    - Contact your representatives and ask them to support the necessary changes.
- A change in the approach to the “Wildfire Problem” must be made.
  - Working together with the USFS to ensure that ANY intrusion of development into the Wildland Urban Interface must be mandated. Allowing communities to be built within these “High Wildfire Severity Zones” must be mitigated with clear and concise plans to mitigate such threats prior to approvals of such development(s), and ongoing and mandatory maintenance of such mitigation(s) must be enforced.
    - Contact your representatives and ask them to support the necessary changes.
- How do we get there?
  - Working together with Government Leadership, Fire Service Industry Leaders, Environmental and Wildlife experts, Property Owners and Land Developers we can (over time) work to reduce the overall threat of Fire on our landscapes.
    - Contact your representatives and ask them to support the necessary changes.

***Please check our website or contact our office with any questions you may have regarding Property Abatement, the IFPD will be happy to assist you! Property Abatement is an ongoing responsibility.***

**Ongoing Fuels Projects:** The Idyllwild Fire Protection District continues to work with our Cooperative Partners on fuels reduction and community resiliency projects: Thomas Mountain, Westridge, South Ridge, Strawberry, and other local fuels projects. The IFPD has also had the opportunity to assist with fuels projects in the Cleveland National Forest.

***Update: (Partnership agreement with the USFS is completed)***

**Bear Trap Fuel Reductions:**

IFPD continues working on this critical fuel reduction project with the private property owners to reduce fuels on a ridgeline west of Idyllwild and east of Bear Trap Canyon. These fuels reductions will greatly strengthen our fire prevention efforts along with the other ongoing fuels reductions projects on west ridge, south ridge, and strawberry fuel reductions. We anticipate an RX treatment in early 2024 on this project.

***Update: The Bear Trap fuel project is ready for an RX (firing) treatment. We will likely need to do a "re-entry" on this project early 2025 and then apply the Rx treatment.***

**Communications Site:**

The IFPD completed numerous improvements to our communications site. The IFPD plans to relocate WNKI (1610 am emergency radio) to the site which will greatly enhance our overall emergency communications network and provide a larger coverage area for the community. This relocation is anticipated to take place early 2025. Thank you to all those who participated in making this project a huge success! (We are currently working with SCE on providing permanent power to this site) Currently we have LP generator power and solar energy providing power to the site.

***Update: We have worked through the project planning process with SCE and anticipate having final approvals by mid-April/May 2025, this will provide permanent power to the site.***

- *We anticipate full SCE Power by July 31, 2025*

### **Individual and ongoing Community CPR Classes:**

IFPD delivers several CPR classes each year. In 2024 we provided five (5) CPR classes for the USFS, three (3) for local tree companies, two (1) local camp employees courses and two (2) community CPR classes. 2025 CPR Classes are underway, IFPD has already provided numerous CPR recert and full classes.

(Persons interested in attending a CPR class should contact our office and speak with Rachel for details and class schedule)

### **CERT (Community Emergency Response Team)**

IFPD held a full CERT Course in October of 2023. We also conducted 1 refresher course in June of 2023. IFPD sponsors MDP (Mountain Disaster Preparedness) and partners with them in the training of new CERT members. Twenty-two new CERT members took the October 2023 training course. In 2024 the IFPD supported two CERT refresher training classes.

- ***The IFPD anticipates putting on one (1) new CERT course and one (1) refresher course in 2025. Check our website or call our office for details regarding upcoming classes. Thanks to all who assisted and participated in these training classes.***

### **Board Ratification of Daniel Diaz.**

Daniel Diaz has served throughout the San Bernardino National Forest (and on the San Jacinto Ranger District) with the USFS for over 20 years. Daniel was most recently assigned as Division Chief 3 on the Front County Ranger District BDF. Daniel served as a Firefighter, AFEO, FEO, Captain, Battalion Chief and Division Chief. Daniel is a Qualified Operations Section Chief and serves on IIMT 6 along with Chief LaMont. Daniel was appointed to Battalion Chief with the IFPD and his first official day with us is June 1st 2025. Congratulations Daniel, Welcome to the IFPD Family.

**Board Ratification of Firefighter Ohm.** Tyler Ohm Joined the IFPD as a Reserve just under three years ago. At the last IFPD recruitment and test for Firefighter Mr. Ohm was successful in the testing process and awarded a probationary Firefighter Position with the IFPD as of December 1<sup>st</sup>, 2024.

Congratulations Tyler, welcome to the Family at the IFPD.

# IDYLLWILD FIRE

54160 Maranatha Drive  
Idyllwild, CA 92549  
Regular Board Meeting  
Minutes – May 27, 2025

Meeting held at 54160 Maranatha Dr. Idyllwild CA.

**Call to Order: 15:00**

**Roll call:** Commissioners: President Andrewson; Vice President Messina; Secretary Sawicki; Commissioner Yost, Commissioner Fogle; Fire Chief Mark LaMont, and Executive Assistant Rachel Teeguarden, District Council Steven Graham, BC Jim LaMont, BC Adam Rodriguez

**Pledge of Allegiance: President Andrewson**

**Invocation: Fire Chief Mark LaMont**

**Citizens' Comments: - None.**

## **Reports**

- Chief Mark LaMont. – *(Please also see Chief LaMont's written report).*  
*IFPD provided assistance on multiple mutual aid incidents, also, January and February 2025 the busiest on record for IFPD with multiple requests for Mutual Aid assistance and pre-positions of IFPD equipment for fire weather, wind rain and mud events. Please help us get the word out to all community members about how important the IFPD abatement program is to our future success during wildfire incidents here at home. I have attended several meetings for numerous fuels projects throughout the mountain plateau. "Do we have a wildfire crisis" – NO, We have a 3 "P" problem. Population, Planning, and Permission, that being said, what are we doing about it? We keep chasing the wildfire problem because we aren't addressing the 3 P's. The Fire Chief explained that he has been working on the IFPD Vision and Strategy plan (25 year plan) and explained that this project would likely take the better part of a year to complete. The Chief suggested that a committee be stood up to assist with many aspects of this plan. The Fire Chief asked that the Board make time in closed session at the next meeting to discuss the paying out of sick time on an annual basis, this is a buyout of accrued time that the IFPD currently does not pay out until the employee separates from employment. There is a significant cost savings in buying these accrued and uncompensated absences annually and the District will save a large amount by paying these out annually.*
- BC Jim LaMont – Completed the 2<sup>nd</sup> round of abatement inspections. 270 fails 40 of those were address fails only. 190 fails were actually sent. Working with the volunteers to help those that have failed because of their address sign.
- BC Adam Rodriguez – Attended a career day for the College of the Desert and we have 4-5 applicants because of this event. Attended multiple Chief Officer meetings and trainings. Held a community CERT/CPR class and had 18 members become CPR certified. IFPD hosted an Interagency Wildland Drill including field exercises. All annual Wildland Training is wrapping up this month and anticipate having everyone qualified with Red Cards by the first week of June.
