Reports

- Chief Mark LaMont. – (Attended via phone from a fire incident) (*Please also see Chief LaMont's written report*). *The thorofare project is ahead of schedule. As we move into more populated areas in town we will need the help of our Commissioners to assit in the education of the public. The public should understand that our work is an effort to manage safe ingress and egress for firefighting personnel and resources as well as the safe evacuation routes for the Pubilc. Many of these areas have overgron vegetation which we are reducinh, removing and trimming. Some of these areas (within the right of way easements) are being planted with flammable vegetation and will be addressed. The IFPD assited the USFS with the burn project in Pine Cove and the USFS assisted us with some burning along the Hwy 243 cooridor. Our IFPD Vision and Strategy plan is moving forward (estimated completion end of calendar year 2026). We are working on FY year invoicing, accounting and a new salary survey. We are currently writing grants which will treat approximatley 3000 acres which includes fuels projects like, Strawberry, West Ridge, South Ridge, Bear Trap, North Fork, Indian, Thomas Mtn, Hwy 74 from Lake Hemet to Hemet, and Fisherman's fuels breaks. If awarded these grants could total nearly 16 million dollars for this critical fuels work. Our 3 Firefighter Paramedic students are doing very well with their schooling and internship. Once completed with this process and have found success with their testing, these Firefighters will begin working as Paramedics here at the IFPD.*
- USFS Chief Scotty Mason – *Gave an update on the Strawberry fules project and other fuels work on the San Jacinto Ranger District which affect our Mountain Plateau. Chief Mason stated that the partnership between IFPD and USFS is the only partnership of it's kind, and that other local government agencies should look to work with their local forests to form similar agreements. The Strawberry Fuel break (North) is nearing completion, once that is complete IFPD crews will move to the Souther portion of the fuel break, then we anticipate working on the Westridge fuels project and in the future the South Ridge, Thomas Mtn. Indian, North Fork and Fisherman fuels projects.*

Dear Mark,

On behalf of SDRMA Board of Directors and staff, I am excited to extend our congratulations to you and your organization for no paid workers' compensation claims during the 2025-26 program year! A paid claim for the purposes of this recognition represents the first payment on an open claim during the prior program year.

In recognition of this accomplishment, I am pleased to inform you that Idyllwild Fire Protection District has earned one credit incentive point (CIP) and received a lower experience modification factor (EMOD). This well-deserved recognition not only highlights your excellence in risk management but also rewards your efforts by reducing your annual contribution amount. It is our way of acknowledging the hard work and dedication that went into maintaining a safe and secure environment.

Your commitment to safety and continuous improvement helps inspire and encourage fellow SDRMA members, and we are proud to partner with Idyllwild Fire Protection District as part of our SDRMA community.

Once again, congratulations on this achievement. Please do not hesitate to reach out if there is anything we can do to support your continued success.

Sincerely,

Robert J. Swan, President
